- ACO Euroline Brickslot – slot drainage
- ACO Uniface – access covers
- ACO TopTek – access covers

ACO Solution

Opened in June 2015, Valamar Riviera's luxurious family resort Valamar Isabella Island Resort sits on the island of Sveti Nikola opposite Poreč town.

Surface drainage is efficiently solved by the ACO Brickslot system with narrow, decent absorbing grids that blend into the environment by following the facility's lines.

In the prominent position of the pool sunbath and access to the surface drainage, it is emphasized by the ACO Multiline canal with a perforated grating that with its high-gloss stainless steel surface emphasized the luxury of the building itself.
